Rev A

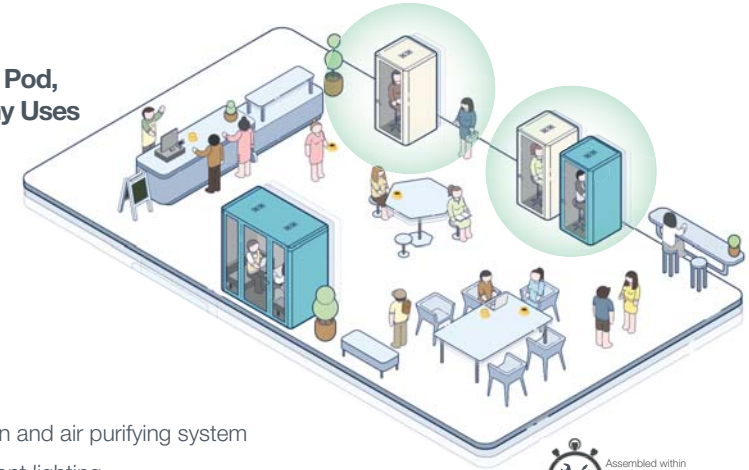

Host was designed to embrace the rapidly changing landscape of open plan environments.

When users need acoustic privacy, compelling workspaces or areas to meet, each pod is highly ergonomic and functional, packed with the latest technology when you need to stay connected.

Host One | For focused tasks or for attending virtual meetings, Host One delivers a single person private space.

**One Pod,
Many Uses**

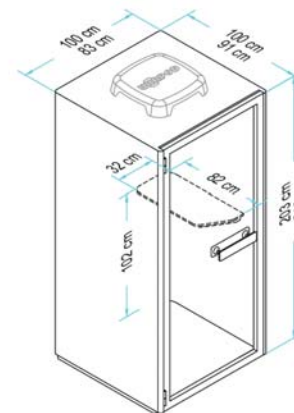

Assembled within
1½hrs

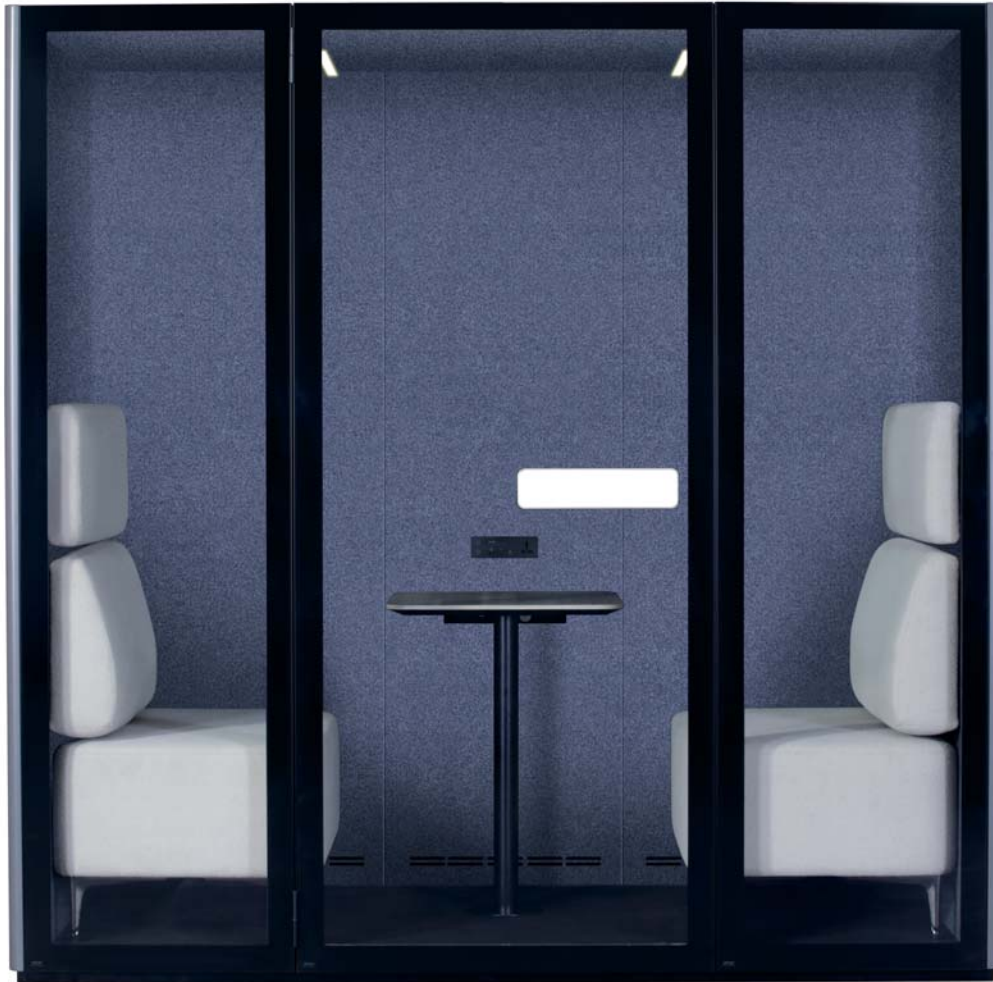

Features.

- Almost silent air circulation and air purifying system
- Intuitive LED energy efficient lighting
- Integrated universal power socket and USB (Type A+C) charging ports
- Auto-close tempered glass door with elegant handle
- Touch-controlled dimmer
- White laminated work shelf with chamfered edge
- White epoxy painted pressed steel exterior
- Charcoal interior PET wall panels
- 28.3dB acoustic rating
- UL Greenguard certified

Together these combine to offer a soundproof, distraction free, space for independent working.

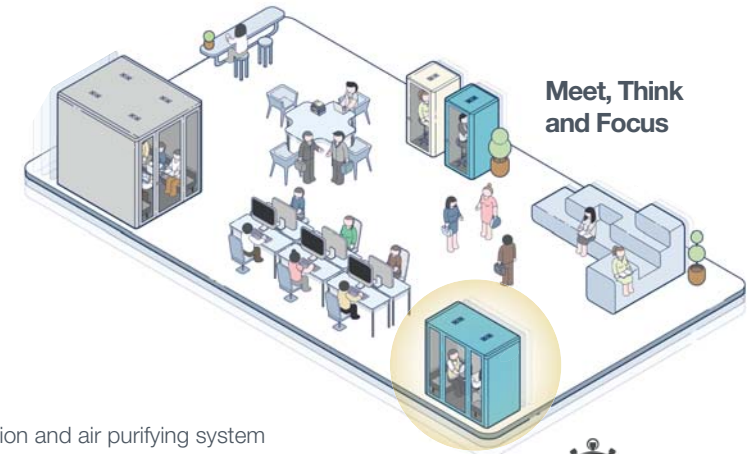

Manufactured within 6 Weeks

Host Two

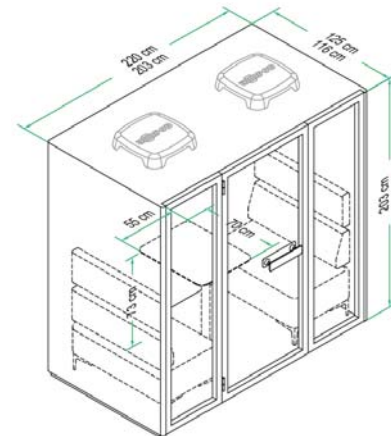

An office within an office, Host Two offers the perfect venue for undisturbed private one-to-one's, team meetings, video conferences and smart screen presentations.

On/Off motion sensor lighting

Acoustically tested as a pod,
acquiring rating of 28dB

Host Certification

HIGH ACOUSTIC RATING

TUV - 28.3dB / NIC

CERTIFIED BY TÜV based on ISO 23351-1 standard

Host has been tested as an assembled unit by TÜV, unlike most other manufacturers pods who test unassembled panels individually meaning the integrity of an enclosed unit is uncertified.

Host has achieved Greenguard Certification which is scientifically proven to meet some of the world's most rigorous third-party chemical emissions standards, helping to reduce indoor air pollution and the risk of chemical exposure.

The certification can contribute to LEED credits.
